The following questions and answers are provided for informational purposes:

Question #1: Clause L34, page 43 of 48 refers to a Work Breakdown Structure per MIL-STD-881. A review of the ASSIST database indicated that this Standard has been canceled. What should be used instead?

<u>Answer #1</u>: As changed above, offerors should use- as guidance- MIL-HDBK-881 which superseded the MIL-STD and which was developed based on the cooperative efforts of the military services, with assistance from industrial associations.

<u>Question #2:</u> Clause I32-900, "Submission of Invoices (Fixed Price), para. (e) is checked that the contractor shall prepare a consolidted invoice covering all shipments delivered under an individual order. What exactly is meant by this?

Answer #2: This item was checked (vs. the first choice) since all of the deliveries are going to the same activity/destination. Since multiple line items are supposed to be delivered simultaneously (See clause F11-8), we're interpreting this to mean that the contractor is to submit a single invoice listing all of the line items being delivered (as opposed to submitting a separate invoice for each line item).
